

**BEFORE THE KANSAS CORPORATION COMMISSION  
OF THE STATE OF KANSAS**

**In the Matter of Application of  
Kansas City Power & Light Company  
to Make Certain Changes in  
its Charges for Electric Service  
To Extend its Demand-Side Management  
Programs**

**Docket No. 15-KCPE-116-RTS**

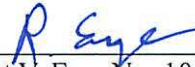

**INTERVENOR CLIMATE AND ENERGY PROJECT'S OBJECTION TO  
SETTLEMENT AGREEMENT**

Intervenor Climate and Energy Project (CEP) hereby registers its objection to the settlement agreement in the above-captioned matter. In support of this objection the following is stated:

1. CEP is an intervenor under the Commission's order of May 5, 2015. The Commission limited CEP's participation to nonhearing matters. (May 5, 2015, Order, para. 5)
2. The primary issue that CEP advanced in its petition to intervene related to the increased customer charge requested by KCP&L in this matter. CEP posited that such increased customer charge would have a negative impact on ratepayers' ability to invest in efficiency and conservation measures. (CEP Petition to Intervene, paras. 5-8)
3. On June 15, 2015, CEP submitted public comments in this docket that further discuss the detrimental effects on ratepayer investments in efficiency and conservation that follow from increased customer charges. CEP's public comments are incorporated herein by reference.

4. CEP's objection to the settlement agreement centers on the failure to consider the negative effects on ratepayer investments in efficiency and conservation that are reasonably expected from an increased customer charge. The omission of any consideration in the settlement agreement of this relevant and material consequence of an increased customer charge compels CEP's objection to the settlement presented to the Commission.

Respectfully submitted,

---
